**Polycorp Attending the 2023 Annual Edition of the Canadian Mineral Processors – Côte-Nord & Labrador in Fermont, Quebec
April 5 – 6, 2023**

Polycorp **Mining Division** representatives attending the **2023 Annual Edition of the Canadian Mineral Processors - Côte-Nord & Labrador**, April 5 – 6, 2023 in Fermont, Quebec.

The Canadian Mineral Processors (CMP) is a Technical Society of the Canadian Institute of Mining, Metallurgy and Petroleum and had its beginning as an operator-oriented group called the Canadian Gold Metallurgists. The formation of the Canadian Gold Metallurgists was predicated on the principle of “Cost plus tails”, i.e. obtaining the lowest possible cost per ton of ore milled with the highest recovery possible. This focus on operators and their interests is maintained as a priority today.
