

EPOLYCORP

RAIL

Unconditional Guarantee

EPFLEX® Railseal, the flexible interface, has helped railroads and road authorities stretch their maintenance budgets for almost three decades.

Extruded from virgin rubber, and designed to give long service life, **EPFLEX® Railseal** is a cost effective alternative for crossing maintenance.

When amortized over the life of two (or more) crossings, **EPFLEX®** creates a very favorable Cost vs. Benefit ratio.

Unconditional Guarantee

Polycorp will unconditionally guarantee that **EPFLEX® Railseal** Interface will effectively perform for the life of the grade crossing and will be completely reusable as an interface in a second crossing rehabilitation.

When installed in accordance with the manufacturer's recommended installation procedures, the material is guaranteed to perform as designed. If at the end of the grade crossing life, the interface is not reusable, Polycorp will replace all or part of worn or defective materials at no charge.
